Math 403, section 5

Student information

Please print!

Name _____

Major(s) _____

E-mail address _____

I would like to make a course webpage with the information above included. This should increase the ability of students to work together in this course. Do you agree to having this information posted on the web?

YES _____ **NO** _____

I may link student homepages to the course webpage. If you have a homepage and would like it linked to the course webpage, please write the URL here.

_____

Students in this course should have had the Rutgers three semester calculus sequence and courses covering basic linear algebra and ordinary differential equations. Have you taken these courses successfully? Please explain any negative answer.

_____

_____

_____

Briefly list any other courses you have had with substantial mathematical content. Please use course titles as well as course numbers. Such courses might include some from Comp. Sci., Physics, Chemistry, some engineering disciplines, etc., as well as math courses.
