Lecturer

Name: Joseph Guadagni (Dr. G)
Email: joseph.guadagni@rutgers.edu
Office hours: Monday, 1:30pm - 3:30pm, Hill-215 (BUS)
Text: phone number is on Canvas course site
Web Page: https://sites.math.rutgers.edu/~jg1314/

Yes, you may text me with questions. General rule is that if you text after midnight, you will likely not get a response until the next day. Same rules for email. Please identify yourself the first time you text me. Do not worry: I will not text you except in response to your questions.

Recitation Instructors

Sections: 07–09 10–12
Name: Rick Goldberg Harold Ning
Email: rick.goldberg@rutgers.edu hn154@math.rutgers.edu
Office hrs: TBA TBA

Textbook

The textbook does not come with the license for MathXL, which you must purchase to complete online homework assignments.

Important Dates

Last day to drop with no W: September 10
Last day to add: September 11
Last day to take RU Ready Test: September 18
Last day to drop to Precalculus: September 20 (see Professor Hirsch)
In-class midterm #1: October 11
First lecture of Math 123: October 15
In-class midterm #2: November 15
Final exam: December 16, 4:00pm - 7:00pm

Before adding or dropping a course, always consult an academic adviser first.
Web Page  All general course materials (syllabus, lecture notes, worksheets, sample quizzes, sample exams, etc.) can be found on my personal teaching page:

[https://sites.math.rutgers.edu/~jg1314/math135.html](https://sites.math.rutgers.edu/~jg1314/math135.html)

Your grades and announcements can be found on the Canvas course page. General information can also be found on the mathematics department course page:

[https://www.math.rutgers.edu/academics/undergraduate/courses](https://www.math.rutgers.edu/academics/undergraduate/courses)

Navigate to “01:640:135 - Calculus I”. You should read the entire contents of the pages: “Course Overview”, “Syllabus, Lecture Schedule, & Homework”, and “The RU Ready Test”. The official list of HW exercises should be the basis of your study guide for the final exam.

Grading  TOTAL:  500 points  100%
MathXL (online homework):  25 points  5%
Quizzes:  60 points  12%
Midterm #1:  100 points  20%
Midterm #2:  100 points  20%
Final Exam:  215 points  43%

MathXL:  
Please see the document “Gaining Access to MathXL” for details on accessing MathXL. Late submissions will not be accepted.

Quizzes:  
Quizzes will be given each week in recitation. Only your top 9 quiz grades will be counted (12 quizzes are scheduled). There will be no make-up quizzes for any reason. You may be excused from a quiz only for religious observance, but you must notify me sufficiently in advance.

Midterms:  
All exams are closed book: no formula sheets, notes, calculator, or any electronic device. There will be no make-up exams for any reason. If you must miss an exam for a truly compelling and documented reason, then your score on that exam will be calculated as an appropriate rescale of your final exam score.

Final Exam:  
The final exam is cumulative. The date and time are determined by the university and cannot be changed. You cannot be excused from the final exam for any reason. There are only some very specific conditions which allow you to reschedule the final exam (e.g., you have finals in 3 consecutive exam periods).

Attendance:  
If you must miss class, it is your responsibility to read the lecture notes. I strongly discourage anyone from missing any class. Problems done in lecture and recitation are great practice and have direct relevance to the exams, quizzes, and MathXL. Absence from class is very detrimental to your success in this course.
Final Grades

Please see the document “Final Letter Grade Calculation” for details on how the final letter grade is calculated. In summary, your final letter grade will be determined by your course grade (percentage out of 500 points) and a set of letter grade cutoffs that is determined for all sections of the course after the final exam is graded and tallied. No instructor knows these cutoffs in advance.

*Do not ask me specific questions about these cutoffs, which includes what exam score you specifically need to achieve your desired grade. I do not know the answer to your question and I will simply refer you to the syllabus.*

Integrity

All students in the course are expected to be familiar with and abide by the academic integrity policy, which can be found at

[https://academicintegrity.rutgers.edu/academic-integrity-at-rutgers](https://academicintegrity.rutgers.edu/academic-integrity-at-rutgers)

Violations of the policy are taken very seriously.

Testing Services

Full disability policies and procedures are indicated at

[https://ods.rutgers.edu](https://ods.rutgers.edu)

Students with disabilities requesting accommodations must present a Letter of Accommodations to me as early in the term as possible. See

[https://ods.rutgers.edu/my-accommodations/letter-of-accommodations](https://ods.rutgers.edu/my-accommodations/letter-of-accommodations)

For students on the autism spectrum, Rutgers University has several services that offer support for social skills, academic skills, self-care, etc. through the College Support Program (CSP).

Mental Health

College is a very stressful time for many of you, and not everyone has a good support system. Unfortunately, a lot of new students also often do not know the resources available to them. Many of you will also cope by self-medicating, usually with alcohol. If you are looking for support, you can check the many resources at

[https://health.rutgers.edu/](https://health.rutgers.edu/)

You should particularly use these services if you are seeking counseling or if you are concerned about your drinking or substance abuse (or that of a friend). If you need emergency support, call 911 or the National Suicide Prevention Lifeline at 1-800-273-TALK. You can also feel free to come to me if you are having difficulty, and I can help you find the proper support. (Anything you tell me is kept in confidence.)

*Please let someone know if you are in crisis.*
