

## **Information for Sections 23, 24, 25 of Math 152, Spring 2009**

**Instructor:** Vladimir Scheffer.

**Instructor's office hours:** Tuesday 1:40-3:00 pm, Friday 10:20-11:40 am in Hill 246, Busch Campus.

**Instructor's email address:** `scheffer@math.rutgers.edu`.

**Course organization for sections 23, 24, 25 of Math 152:** The main web page for this course is:

<http://www.math.rutgers.edu/courses/151-152/index.html>

A lot of relevant information will be posted at various times during the semester under the heading "MATH 152 SPRING 2009 INFORMATION" on this web page. Now you can see a link called

Math 152 Syllabus and Suggested Textbook Problems.

This link gives you an outline of the course and a set of textbook problems that you should try to do. Some (or all) of these problems will be assigned as homework. Under the same heading, there is a link called

Announcements & Web Pages for Specific Sections

This page contains links to specific sections of Math 152, including our sections 23, 24, 25.

**How your course grade is determined:** We will have two midterm exams and a final exam. Calculators may not be used during exams. The exams are closed book exams. You may not bring any notes or other papers to any exam. The only formula sheets that can be used during exams are the formula sheets that are included with the exam booklet. These formula sheets will be posted on the course web page. Each midterm exam is worth 100 points. The final exam is worth 200 points. There will be workshops and quizzes in recitation. There will also be textbook homework due in recitation. The workshop write-ups are worth 75 points. The quizzes are worth 50 points. The homework is worth 50 points also. Adding the points from exams, workshops, quizzes and homework, we will get a total course score for each student. This total course score is a number between 0 and 575. At the end of the semester, I will set up a curve that assigns a course grade to each total course score.
