Instructor: Thomas Robinson
classroom: SEC-204
class times: MTWH 8:00A-9:50
Office: 611 Hill Center
Office Hours: MW 2:00P-3:00
e-mail: thomasro@math.rutgers.edu
course website: http://www.math.rutgers.edu/courses/135/135-su11
lecturer website: http://www.math.rutgers.edu/~thomasro/

Calculators are not required, and *no* calculators will be permitted on exams.

The course textbook is Calculus by Strauss, Bradley and Smith. Any of the third, fourth or Rutgers custom editions will be fine. The course is based on the first 5 chapters, which are sometimes sold separately as Volume 1.

There will be two mid-term exams and a final, which determine the bulk of your grade. In addition, there will be homework, daily quizzes and Webwork assignments.

Attendance at all exams (including quizzes) is required as there will be no makeups, barring truly compelling *and documented* reasons. The final exam will take place during the last class meeting on July 21 (but it will run for 3 hours). The mid-term exams will take place during class times to be announced.

There will be homework assigned for each section. No late homework will be accepted. Since many of the quizzes and all three exams will be closely based on homework assignments, students are strongly encouraged to be diligent with their homework (it is the only way to ultimately learn mathematics, by doing it).

The breakdown of your grade will be as follows:

Homework — 5%  Quizzes — 10%  Webwork — 5%  Midterm 1 — 20%  Midterm 2 — 20%  Final — 40%
