

Attendance Quiz # 8 for Dr. Z.'s MathHistory for Lecture 8

NAME: (print!) _____

E-MAIL ADDRESS: (print!) _____

1. In a certain country there are only two kinds of coins. One is worth 10 dollars each, and the other is worth 13 dollars each. How would you pay for a cup of coffee that costs exactly 1 dollar (without tipping!). What do you have to give to the cashier, and what does the cashier return to you?
