

MTH 327H: Homework 11

Due: November 30, 2018.

1. Office hours the thirteenth week of classes are W 11:30-12:30. I will be at MIT on Monday and Tuesday; Monday's lecture will be given by Professor Gerhardt.
2. The second exam will be posted shortly after class on Friday November 30 and due at the *beginning* of class on Friday December 7. The format will be essentially the same as the first exam. Barring extremely surprising events, the exams will be graded over the weekend and you will have a chance to come look at your graded exam briefly during finals week before I submit the final grades.
3. Read Rudin Sections 6.1-25.
4. Do problems 5, 6, 15 and 16 from Rudin Chapter 5 and problems 2, 3, 5, 6, and 7 from Rudin Chapter 6.
