What do you like best about this course?

These comments are intended for all instructors.

Comments
The people were very fun to be around, and Larry was very fun when he was teaching.
The atmosphere of the classroom was the best out of any class I've experienced. Mr. Frolov came into class passionate and determined to teach, which made learning the material a lot easier.1
He was realistic about what we need to remember and minimized the amount of things we need to memorize
I like the connections of topics of why certain math works the way it does. I find that interesting how something works because of Calculus 2.
It makes you think critically

If you were teaching this course, what would you do differently?

Maybe more activity sheets!! Those definitely helped a lot
The group work we did helped me solve the problems a lot quicker. I would've done them more.
Nothing really
I wouldn't do anything differently.
nothing

In what ways, if any, has this course or the instructor Lawrence Frolov encouraged your intellectual growth and progress?

These comments are unique to the instructor Lawrence Frolov.

Comments
I really enjoyed Prof. Frolov's lecturing, he's very good. He's super engaging and is completely focused for the entire time. He's been great, could not recommend more.
He was always extremely understanding, and tried to elaborate on stuff as much as possible. He was very kind and always willing to answer my really stupid questions.
He helped me find a new passion for mathematics. He taught our class in a way that was fun and engaging. He explained every problem in a concise, simple, and understandable way.
I think he has an engaging way of teaching and explaining things that make the concepts stick better.
Was very willingly to answer emails and help outside of class time
Lawrence explained new topics and concepts very easily by providing several examples and visualizations. Showed us how to look at problems from a different point of view than only the way we're expected to look at them.
Lawrence constantly tried different ways of interacting with us and making us engage with the material through his high energy discourse. He was always happy to answer questions and provided extremely helpful feedback during group work.

Larry was one of the best profs I have ever had
Overall very good were a few times where things were overly convoluted but that could just be due to the complexity of the course material
