What do you like best about this course?:

“The TA always started off class with either a related joke or fact which made coming to workshops exciting.”

“Professor Coulson cared deeply about the quality of learning of all the students. She took care to meet with each of us during the workshop to make sure our understanding of the complicated problems was sharp and clear. ”

If you were teaching this course, what would you do differently?:

“The grading was a bit harsh and a bit sporadic. There are times when I actually did put effort into my workshops and I got a 0/10. It wasn't even as if I put 0 effort into the work. Giving me a 0/10 made me a bit embarrassed to have to come into office hours. It made me feel like an idiot. and it really hurts my grade. If I were to teach the course, I would grade a little less harshly. ”

In what ways, if any, has this course or the instructor encouraged your intellectual growth and progress?:

“The workshops would always include questions that forced to think beyond the definitions and made us use them in creative or interesting ways. ”
