Dr. Liang-Cheng Zhang is currently retired, but he previously served as a Professor in the Mathematics Department at Missouri State University. He received his Ph.D. in Mathematics from the University of Illinois at Urbana-Champaign in 1990, and his advisor was Dr. Bruce Berndt.

One of his research interests is Ramanujan's work, and he co-authored and authored 17 papers, in total, analyzing Ramanujan's work. Ramanujan clearly inspired Dr. Zhang, and his works helped bridge some of the gaps between Ramanujan's ideas and current research topics in mathematics.
