First Announcement

Workshop

Nonlinear Robust and Optimal Control

WÜRZBURG, GERMANY, MARCH 30 - APRIL 3, 1998

The workshop **Nonlinear Robust and Optimal Control** will be held at Würzburg (Germany) from March 30 to April 3, 1998.

It is organized by the EUROPEAN NETWORK **Calculus of Variations and Control of Constrained Uncertain Systems** which is included in the HUMAN CAPITAL AND MOBILITY PROGRAMME OF THE EUROPEAN UNION. The intention is to bring together engineers and mathematicians interested in the following topics:

1. Robust Control
2. Disturbance attenuation
   (a) via the worst case approach:
   Differential Games, Hamilton-Jacobi-Bellman-Isaacs equations, Nonlinear H_∞-theory,
   (b) via identification and observer techniques,
3. Stability Theory
4. Optimal Control
