David Marius Bressoud is an American mathematician who works in number theory, combinatorics, and special functions. Now he still is DeWitt Wallace Professor of Mathematics at Macalester College, Director of the Conference Board of the Mathematical Sciences and a former President of the Mathematical Association of America.

Professor Bressoud was born in 1950 March 27th. The beginning of professor Bressoud's mathematical life is his seventh grade. He started interested in mathematics and his teacher encourage him keep working on mathematics. When Bressoud studied Swarthmore College, he did not decide his major, but he chose mathematics to graduate because this major is the fastest way for him to graduate. After graduating, he became a Peace Corps volunteer in Antigua. During this period, he still interested in mathematic and decided to learn more and finally he received his PhD in 1977 under Emil GrossWald.
