

[11, 21, 1964,1987, 1, 2, 0]

Simcha Brudno, was born in 1924 in Lithuanian. Brundo family were Zionist. Brudno was educated in Jewish tradition and Jewish schools. At the beginning of the War, they were spared since they were located in Lithuania. Then the Germans took over, he was eventually sent over to the camps. Brudno was liberated in 1945 by Hawaiian troops. After the war, he was smuggled into Ireal and applied to the university for physics and mathematics degree. He made the Jacobi-Madden equation in 1964.
