Errata to David Wells' masterpiece "Games and Mathematics" Subtle Connections

Doron ZEILBERGER[1]

I thorougly enjoyed this beautiful book! Here are some minor errors and typos.

p.23, 6 up: "96 solutions" should be "92 solutions"

p. 50, 7 down: 82 should be 81

p. 71, middle, the power 1/4 should be 1/2 and the upper limit of the second product should be n (and possibly other fixes)

p. 109, line 7 up: $x = \pi/4$ should be $x = 1$; line 4 up $x = \pi/6$ should be $x = 1/\sqrt(3)$; line 3 up 1/12 - should be $1/\sqrt(3)$

p. 147, line 9 down: BPP formula is wrongly stated (lower limit of $\sum$ is $i = 1$, $8i - 6$ should be $8i + 6$)

p. 191, two last lines should be deleted

p. 215: $\pi \to h$ in various places
